

This newsletter provides you with a short update on the latest developments related to Active House. Visit www.activehouse.info for more information on Active House cases, projects, events and news.

Active House welcomes Aralco as new Alliance Member
Aralco Natural Ventilation Systems are a true industry leader with over 30 years experience in the ventilation industry. They pride themselves in offering customers the highest quality, innovative, stylish products and services to help meet the ever changing demands of the building industry. Innovation, flexibility, reliability and advice in helping the customer with right solution and service are standard with [Aralco NVS](#).

See our website for an up-to-date overview of all [Alliance members](#).

Vice mayor of Beijing visits Green Lighthouse in Copenhagen

A delegation from China was in Copenhagen on September 26 to see how the city is being developed in terms of sustainability. They visited Green Lighthouse, which houses the faculty of natural science of Copenhagen University. Read more on the [website](#).

Active House webinars

In September we had three webinars on the draft revision of the Active House specifications. We hope it was a good forum to gain deeper knowledge about the updated Active House specifications, and to discuss related issues with other Active House members.

We have a number of new webinars planned:

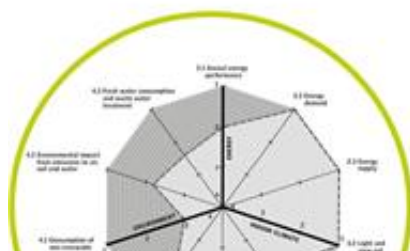

- October 22 from 14.00 - 15.00 CET: Active House case Green Solution House by Kasper Guldager.
- October 24: Active House case. WorldFlexhome by Anders Thomsen
- November 1: Active House case. Sunlight house by Heinz Hackle.
- November 25: Learnings from the Model Home 2020 project by Lone Feifer.

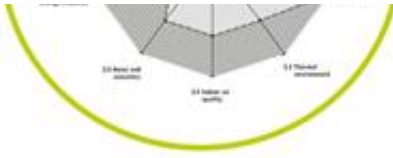

Keep an eye on our site for more information. Send us an e-mail at secretariat@activehouse.info if you wish to follow one of the webinars.

Active House Radar diagrams online

The following model homes have been enriched with an Active House radar diagram:

- [Carbonlight Homes](#)
- [Lichtaktiv Haus](#)
- [Sunlighthouse](#)

- [Home for Life](#)

The radar diagram balances the Active House aspects environment, energy and indoor environment on a scale.

Active House gets LinkedIn!

As you probably know by now, we have two Active House LinkedIn groups. One meant for anybody and everybody interested in Active House and sustainability and the other for Active House Alliance members. Please join us and expand our network. As of today:

[ActiveHouse network](#) has 45 members and

[Active House Alliance-members](#) has 36 members.

Got news?

Dear readers, if you have news that may be of interest to the rest of us, please do not hesitate to send it to me at tiffanyfuhler@activehouse.info so that I can place it on the website or in the newsletter.

Fenstertage in Rosenheim

The Active House Alliance has been invited to participate at the [Rosenheim Fenstertage](#) in Germany on October 11 and 12. The Alliance will give a presentation on the vision, development, case stories and windows for Active Houses.

Green Solution House

Green Solution House is a platform for branding sustainable materials and technical solutions. The goals of the Green Solution House are:

- To be a platform for the highest level of sustainable development.
- To be an example of continuous improvement.
- To show solutions on biodiversity, materials, energy, water and waste.
- To grow a local and global network for knowledge sharing.

The building program and the sketch proposal of [Green Solution House](#) have been inspired on the Cradle to Cradle principles, furthermore the Green Solution House will be detailed according to the Active House principles and the new Danish green building code DGNB-Denmark. Read more on the website.

Nordic Built Charter

The [Nordic Built](#) program has been initiated by the 5 ministries for energy and housing in the Nordic countries. The program will combine key Nordic strengths, provide attractive and effective arenas for collaboration and realize concrete projects that demonstrates world-class scalable solutions. Several members from the Active House Alliance also participate in this project; among others DTU, TI, Cenergia and VELUX. More information on our [website](#).

Contact

Please don't hesitate to contact us if you have questions or good ideas on how to spread the word and vision about Active

House. You can reach us secretariat@activehouse.info.
