

Which webinars do you wish to participate in?

Give us your input! During 2011-12 we have launched a number of Active House webinars, and wish to continue this for the next period too. The Knowledge Sharing workgroup is planning 6 webinars. We imagine a focus on training in the Active House specification and case presentation of Active House buildings, but would like to ask you, what you wish to have as topics. Give us your input on what you would like to have as topics for the coming Active House webinars. Send your suggestions to: secretariat@activehouse.info

Studies by Building Performance Institute Europe

European legislation on buildings (EPBD) and energy efficiency (EED) requires European member states to develop strategies on how to progressively transform their national building stocks into an energy performing and climate neutral built environment. [Read more.](#)

Nordic Built network and competition

On Monday 10 December, the Municipality of Copenhagen hosted yet another round of signatures for Nordic Built Charter. Over the last six months, more than 100 Nordic partners have signed the charter, which takes it halfway towards its membership target. [Read more.](#)

BUILD UP

[BUILD UP](#) is the EU portal for energy efficient buildings. They will soon publish an overview article on 'Interesting Market Concepts and Trends towards Nearly Zero-Energy Buildings'. Active House is included as one of the concepts. Others include:

- Passive house
- Effizienzhaus Plus (Germany)
- Effinergie (France)
- Minergie (Switzerland)

Invitations to Active House Alliance members

Members of the Active House Alliance have been invited to participate actively in a number of activities during spring 2013. These activities are for members only and more information can be reached by contacting kurt.emil.eriksen@activehouse.info

Invitation: PhD scholarship in Sustainable Construction - Innovation and Institutionalisation

Copenhagen Business School, CBS, invites applications for a vacant PhD scholarship on the topic "Sustainable construction, innovation, and institutionalization". The successful candidate will be associated with the CBS Sustainability Platform. [Read more.](#)
