

Active House Seminar @Ecobuild; Rethinking in a holistic approach

Topic: Active House Projects and debate on commercial value followed by Active House General Assembly 2017

Place: Tuesday 7. March 2016 from 14.00-17.00 in room N4 in the North hall

Program:

14.00 Welcome and introduction to Active House

By Michael K. Rasmussen, Chair of the Active House Advisory board

14.10 Living in the world's first labeled Active House

The world's first labeled Active House has been developed by Great Gulf Home. The first 6 months, the house has been tested by the Ibbotson family of two adult and three children. Hear about the experiences first hand, the building design and first conclusions

By Nels Moxness, President and Russell Ibbotson, Technical Manager, VELUX Canada

14.30 Value creation in house building today and tomorrow

Great Gulf Home has built two Active House projects in Canada and is a leading partner in the development of the Active House Alliance. Reflections on business opportunities through partnerships and awareness of sustainability.

By Tad Putyra, President and COO, Great Gulf Low Rise

14.45 Active House Label Award 2016

Introduction to the Active House Award including the Jury's thoughts and considerations.

By Kurt Emil Eriksen SG Active House Alliance

14.55 Green Solution House – Winner of the Active House Label Award 2016

Green Solution House is a Hotel and Conference center that is based on the Active House vision. The award was given to green solution house due to the sophisticated project that has been thoroughly designed in every detail.

Presentation of the house and the concept behind by Trine Richter CEO Green Solution House

15.10 House at Garda Lake – Special awarded project to the Active House Label Award

House at Garda lake received recognition due to its combination of a detailed passive design solution to reduce energy for heating and cooling in combination to its thoroughly focus on indoor climate design with natural ventilation, comfort and daylight.

Presentation of the house and the concept behind by Eileen Meyer, EILEEN MEYER ARCHITETTO

15.25 Active House: A new world of standards through experimentation

Development of new standards within sustainable design is a key driver for a sustainable transition, however there are also a number of barriers. A fresh PhD study reviews the Active House model as innovation platform.

By Lara Anne Hale, M.Sc., Marie Curie PhD Fellow

15.40 Panel debate on value creation by sustainable building design and networks

Speakers discuss with audience

16.00 Active House General Assembly following the procedures of the statutes

Status on activities and finances in 2016

Presentation on activities and budget 2017

Election of members to Board of Directors and to the Advisory Board

Any other business

16.50 Launch of the Active House Label Award and Symposium 2017

17.00 Refreshments and networking
