## Highlights

### Deadline for Active House label award has been extended! Take part with your project.

The Active House Alliance invites professional house builders, developers, architects to [submit](#) their project on sustainable buildings. The projects are evaluated by an [independent jury](#) and the winner will be awarded with an Active House label at a celebration during the Active House Symposium 2017.

The final deadline to submit your project has been postponed to **25 August!**  
**activehouse** See how to register [here](#). Download the Award Application Form [here](#).

### Active House Symposium: agenda announced

Are you an architect, investor, house builder, researcher working with sustainable buildings? Or a policy maker working with framework conditions for sustainable buildings? Join the international conversation on user centric design, focus on indoor comfort tools and challenges, and a general innovation perspective. Presentations and discussions on sustainable building design in an international perspective with specific focus on human well-being.

The Active House Alliance invites you to come to Bornholm on 27.-28. September for 2 days packed with high level key notes, workshops on tools, monitoring and policy discussions, and networking with likeminded global sustainability frontrunners.

# Projects

## Discovering the projects participating to the Active House Label Award: the 1st Hungarian refurbished family house with the Active House principles

Prof. Dr. habil Kistelegdi István DLA, Ph.D. participated to the project of refurbishment of a family house using the Active House principles of comfort, health and energy efficiency.

This is the first project of this kind to be implemented in Hungary.

Find out more about the project [here](#).

## LinkedIn blog by Kurt Emil Eriksen, Active House Label – a tool to empower house owners and developers to design sustainable buildings

Why it matters to live in a Active House labelled home. Read the full blog post [here](#).

## Members & partnerships

### Welcome to UPM and Arkitema, our new Active House members

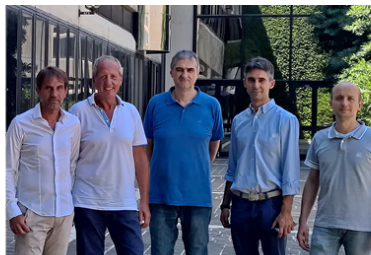

Recently we had the pleasure to welcome the Department of Civil and Building Engineering, and Architecture (DICE) of the Italian Polytechnic University of Marche (UPM) and Arkitema, the Danish architectural practice, as our latest members to the Active House Alliance. We are looking forward to working with them on sustainable buildings issues following the Active House principles!

Find out more about how to become a member [here](#).

### Active House Alliance and BLOXHUB join forces

At the beginning of this month Active House signed a Memorandum of Understanding with [BLOXHUB](#).

BLOXHUB is a community and co-working space for sustainable urbanization. It is based in Copenhagen and they have as mission to '*bridge architecture, design, construction and digitization and to connect companies, researchers and organizations*'. The aim is to create an ecosystem of like-minded stakeholders and to help creating solutions for a good quality of urban life.
